

FCC:

I have been a Satellite radio subscriber for many years now. The most recent addition of local traffic/weather channels has been an oft-used and excellent feature. Please do not limit XM's ability to continue this and other locally-oriented programming. I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

Accordingly, I respectfully urge you, the FCC, to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I pay for, demand and deserve.

Sincerely,

/s/

Steven M. Pacillio, Esquire
